Discover How The Multi-Win System Gives You The 'e-Lottery Advantage' In The UK Lotto ...

With a record jackpot of **£42 million GBP**, the **UK National Lotto** is one of the richest, lump-sum, tax-free lotteries in the world. It's played twice a week, on Wednesday and Saturday evenings, with both draws televised on the BBC.

Of course watching a lottery being won by other people is so, so much easier than *winning* a lottery yourself.

But now the **e-Lottery Syndicate System** is here, *guaranteeing* to move you several steps closer to that exclusive 'Jackpot Winner's Club' in *every single UK Lotto draw!*

Here's how...

702% Greater Chance Of Scooping A Jackpot ... And By Matching Only 5 Numbers!

Join online as a **Player Member** and we instantly allocate you a place in a 49-player **UK SYNDICATE**, emailing you confirmation with a virtual **VWD Membership Card.** The card bears your **5 lottery numbers**, picked from **1 to 49**, which we enter automatically in every Wednesday and Saturday UK Lotto draw.

'UK' Membership Card

After each draw we check your numbers electronically and send your winnings directly to you by cheque or by PayPal.

Now, if you've played the UK Lotto game normally on your own or in a conventional syndicate before, you're probably thinking: "**Hold on a minute!** You play the Lotto with *six* numbers from forty-nine, not *five* numbers from forty-nine,"...

And you'd be right.

But that's the really great thing about the e-Lottery ... effectively, you **only need to play with 5 numbers**. All because your 5 numbers — your 'Main' numbers as we call them — are combined with a **variable 6th number** in a strict mathematical pattern – so that you know before every draw that **you're going to match at least 1 number** ...

Dramatically Improve Your Odds Of Winning A Prize

And with one less number than normal to have to match, your chances of scooping the top prize increase from 1 in 14 million to only 1 in 1.9 million — **a 702% greater chance of scooping the jackpot**. What a difference!

Not only that, your chances of winning *any* prize jump to **only 1 in 13** ... In fact, **you qualify for a prize even when you match just 2 Main numbers!**

Comparative Odds

Cash Prize	Normal UK Lotto Odds	e-Lottery Odds
Jackpot	1 in 14 million	1 in 1.9 million
Any	1 in 54	1 in 13

How have we arrived at those odds?

Well, we could show you the computations, but for simplicity, best just to say that the figures aren't ours; we consulted a **University Professor of Mathematics** to work them out for us when developing the system.

Scoop As Many As 88 'MULTI-WIN' Prizes Every Week

What's more, for the System to work — for it to secure that vital 'guaranteed' number — it needs precisely 44 single line entries in each UK Lotto game ...

Which means you get **44 chances of winning in every draw!** With draws on Wednesday and Saturday, that's a remarkable **88 chances of a prize every single week!**

But that's only part of the prize-winning power in the System. Forty-four entries means you also harness the capability of what we call the system's **MULT-WIN METHOD**.

Incredibly, when you win, you never win just one prize ... **You win up to 44 prizes!** This Winnings Table shows you how many prizes you get for how many correctly matched numbers, thanks to this Multi-Win Method:

Playing The UK Lotto Just Doesn't Get Any Easier Than This

Massively improving your chances of winning is not the only benefit of a UK Syndicate membership. There's also the sheer **SIMPLICITY** and **CONVENIENCE**.

We enter your numbers in every draw automatically, so there's ...

- **No more forgetting to buy tickets**
- No more last-minute panics
- **No more trekking to the lottery shop**

Then, after each draw, we email the results direct to your inbox, and, when you win, alert you with a congratulatory email message … Following up a few days later in the post with a **VWD Winnings Statement and cheque** – to wherever you are in the world. Or, if you prefer, we credit your winnings to a **PayPal account**.

Winnings Statement with Cheque

That means there's also …

- **No more mislaying or losing your tickets**
- No more forgetting to check your tickets (or mis-checking them, even)
- **No more having to collect your winnings back at the lottery shop**
- No more *forgetting* to collect your winnings, either.

Who on Earth would forget to collect their winnings? Quite a lot of people it seems. Since the UK National Lottery began ten years ago, unclaimed prizes amount to a staggering **£649.3 million GBP!** … Which includes the winner of the biggest ever unclaimed prize of — unbelievably — **£2.9 million GBP!**

You're In Complete Control

But as if the service you get from us isn't convenience enough, we also give you 24/7 access to your own **VWD PLAYER MEMBER WEBSITE:**

VWD member website

Fully hosted and maintained by us, the site – your player's 'Back Office', as we call it – allows you to manage your entire e-Lottery experience if and when you like. You're able to:

… And plenty more besides.

"All This! … But for how much?"

So … what does it cost to have the e-Lottery Advantage over your Lotto-loving friends who play the normal way?

£5 A WEEK!

That's it, just £5 a week. No joining fee. No hidden costs. No deductions from your winnings.

You can **pay a week at a time** and play for as short or as long a spell as you like. Be it one week, one month, or one year. No commitment. No contract.

What's more, you have the option to **become an Affiliate Member** and work towards playing effectively at **no cost at all**. And into the bargain earn **extra income**.

Of course, if you want to, you can play in both Syndicates – ' UK' and 'Euro' – to maximise your chances of winning. This costs just **£10 a week** for 3 weekly draws (£3.33 each), giving you in total **124 chances of a win**.

BUT ... for **as little as £5**, you...

- **Enter the two weekly UK Lotto draws with a total of 88 lines!**
- Have one less number to match than independent players for a win
- **Play with 702% better chance of scooping the jackpot**
- Play with a 1 in 13 chance of winning any prize
- **Win more than you would playing normally with the same matched numbers**
- Enjoy the simplicity and convenience of the Syndicate System
- **Control everything from your computer – from anywhere in the world**

So why not **try out the System right now** for a week or so and judge the e-Lottery Advantage for yourself? Play in the next draw on **06/11/2004.**
